Notes to the Condensed Interim Consolidated Financial Statements

(Unaudited – Prepared by Management)

(Expressed in Canadian Dollars Unless Noted Otherwise)

1. GENERAL INFORMATION

Pure Gold Mining Inc. (“Pure Gold” or the “Company”), is a publicly listed company incorporated and domiciled in Canada. The Company is listed on the TSX Venture Exchange (“TSX-V”) under the symbol “PGM.” On June 24, 2014, the Company changed its name from Laurentian Goldfields Ltd. to Pure Gold Mining Inc. This change has been reflected throughout these consolidated financial statements. The Company’s head office, principal address and records office is located at Suite 1900 – 1055 West Hastings Street, Vancouver, British Columbia, Canada, V6E 2E9. The Company’s registered office address is c/o McMillan LLP, 1500 Royal Centre PO Box 1117, 1055 West Georgia Street, Vancouver, British Columbia, Canada, V6E 4N7.

Pure Gold is an exploration stage business focusing on the acquisition, exploration and development of gold and other precious and base metal properties in Canada. Currently, the Company’s principal mineral property is the Madsen Gold Project located near Red Lake, Ontario. The Company also has an unincorporated joint arrangement with Kinross Gold Corporation whereby a portion of the Company’s exploration and evaluation activities are conducted with its partner, and accordingly, the financial statements reflect only the Company’s proportionate interest in such activities.

The Company has not yet determined whether its properties contain mineral reserves that are economically recoverable. The continued operations of the Company and the recoverability of the amounts capitalized for mineral properties is dependent upon the existence of economically recoverable reserves, the ability of the Company to obtain the necessary financing to complete the exploration and development of such properties and upon future profitable production or proceeds from the disposition of the properties.

2. BASIS OF PRESENTATION

Statement of Compliance

These condensed interim consolidated financial statements were prepared in accordance with International Accounting Standards 34, Interim Financial Reporting (“IAS 34”), using accounting policies consistent with International Financial Reporting Standards (“IFRS”) as issued by the International Accounting Standards Board (“IASB”) and interpretations of the IFRS Interpretations Committee (“IFRIC”).

The accounting policies and methods of application applied by the Company in these condensed interim consolidated financial statements are the same as those applied in the Company’s most recent annual consolidated financial statements as at and for the year ended March 31, 2014, except for those policies which have changed as a result of the adoption of new and amended IFRS pronouncements effective April 1, 2014 and for the following accounting policy which has been added to these condensed interim consolidated financial statements and is discussed below. These condensed interim consolidated financial statements do not include all of the information required for full annual financial statements and therefore should be read in conjunction with the Company’s most recent annual consolidated financial statements as at and for the year ended March 31, 2014. The effects of the adoption of new and amended IFRS pronouncements have been disclosed in Note 3 of these condensed interim consolidated financial statements.

Property, Plant and Equipment – The Company acquired an office facility for its Madsen Gold Project which has been classified under exploration equipment in Note 8 of these condensed interim consolidated financial statements. Exploration equipment is recorded at cost less accumulated depreciation using the declining balance method at a rate of 20%.

3. NEW, AMENDED AND FUTURE IFRS PRONOUNCEMENTS

The following standards have been published and are mandatory for the Company's annual accounting periods beginning on or after April 1, 2014:

IAS 36 – Impairment of Assets

In May 2013, the IASB published a revised version of this standard to reverse the unintended requirement in IFRS 13 '*Fair Value Measurements*' to disclose the recoverable amount of every cash-generating unit to which significant goodwill or indefinite-lived intangible assets have been allocated. Under the amendments, the recoverable amount is required to be disclosed only when an impairment loss has been recognized or reversed. The amendments apply retrospectively for annual periods beginning on or after January 1, 2014 and the Company has adopted the amendments to this standard. There was no impact on these consolidated financial statements as a result of the adoption of this standard.

IFRS 7 – Financial Instruments Disclosure

This standard was amended to require additional disclosures on transition from IAS 39 to IFRS 9, effective for annual periods beginning on or after January 1, 2018. The Company is currently assessing the impact of adopting IFRS 7 on these consolidated financial statements.

IFRS 9 – Financial Instruments: Classification and Measurement

In July 2014, the IASB issued the final version of IFRS 9 Financial Instruments bringing together the classification and measurement, impairment and hedge accounting phases of the IASB's project to replace IAS 39 Financial Instruments: Recognition and Measurement. The mandatory effective date of IFRS 9 would be annual periods beginning on or after January 1, 2018, with early adoption permitted. The Company is currently assessing the impact and timing of adopting IFRS 9 on these consolidated financial statements.

IFRIC 21 - Accounting for Levies Imposed by Governments

IFRIC 21, *Levies* was issued on May 20, 2013 and provides guidance on when to recognize a liability for a levy imposed by a government, both for levies that are accounted for in accordance with IAS 37 *Provisions, Contingent Liabilities and Contingent Assets* and those where the timing and amount of the levy is certain. IFRIC 21 is effective for annual periods beginning on or after January 1, 2014. There was no impact on these consolidated financial statements as a result of the adoption of this standard.

IAS 32

This standard was amended to clarify requirements for offsetting financial assets and financial liabilities, effective for annual periods beginning on or after January 1, 2014. There was no impact on these consolidated financial statements as a result of the adoption of this standard.

4. SIGNIFICANT ACCOUNTING JUDGMENTS, ESTIMATES AND ASSUMPTIONS

The preparation of financial statements in conformity with IFRS requires management to make judgments, estimates and assumptions that affect the reported amounts of assets, liabilities and expenses. Estimates and judgments are regularly evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

In preparing these condensed interim consolidated financial statements, the significant judgements made by management in applying the Company's accounting policies and the key sources of estimation uncertainty were the same as those that applied to the annual consolidated financial statements for the year ended March 31, 2014.

5. ACQUISITIONS

On March 4, 2014, the Company acquired 100% interest in the Madsen Gold Project from Claude Resources Inc. ("Claude"). In accordance with IFRS 3, Business Combinations, a business combination is a transaction in which an acquirer obtains control of a business which is defined as an integrated set of activities and assets that are capable of being conducted and managed to provide a return to investors. For an integrated set of activities and assets to be considered a business, the set needs to contain inputs and processes. This acquisition does not meet the definition of a business combination as the Madsen Gold Project is an exploration stage property with no defined mineral reserves and did not contain any processes. Consequently, this transaction has been recorded as an acquisition of assets. All assets acquired and liabilities assumed were recorded at fair value.

On June 24, 2014, the Company acquired 100% interest in the Newman-Madsen Property from Sabina Gold & Silver Corp. ("Sabina"). In accordance with IFRS 3, Business Combinations, a business combination is a transaction in which an acquirer obtains control of a business which is defined as an integrated set of activities and assets that are capable of being conducted and managed to provide a return to investors. For an integrated set of activities and assets to be considered a business, the set needs to contain inputs and processes. This acquisition does not meet the definition of a business combination as the Newman-Madsen Property is an exploration stage property with no defined mineral reserves and did not contain any processes. Consequently, this transaction has been recorded as an acquisition of assets. All assets acquired and liabilities assumed were recorded at fair value.

9. RECLAMATION DEPOSITS

As of December 31, 2014, the Company made four deposits with Canadian financial institutions to provide financial assurance for four letters of credit totaling \$1,747,499 (March 31, 2014 - \$1,407,736). These letters of credit provide for a partial indemnification of the closure and reclamation costs with respect to the Company's Madsen Gold Project (Note 16a). Three of these deposits yield interest at a rate of 1% per annum and mature on March 3, 2015 and the fourth deposit yields interest at a rate of 1.25% and has no maturity date. All deposits are considered long-term, regardless of their term, as the funds will remain on deposit until the letters of credit are extinguished.

c. Madsen Gold Project, Ontario

On March 4, 2014, the Company acquired a 100% interest in the Madsen Gold Project from Claude. The Madsen Gold Project comprises in excess of 4,000 hectares in the prolific Red Lake gold camp of Northwestern Ontario.

Consideration to Claude incorporated both cash payments and share consideration as follows:

- Cash consideration of \$8.75 million (*paid*);
- Share consideration at closing representing 19.9% of Pure Gold's shares outstanding following completion of the acquisition and based upon an initial \$7.5 million financing (*issued 9,776,885 common shares – fair value of \$2,102,031*).

Macquarie Capital Markets Canada Ltd. acted as financial advisor to Pure Gold in connection with the Madsen transaction and upon closing received a success fee of \$300,000 in cash and 1,200,000 common shares of Pure Gold (fair value of \$258,000).

Oxygen Capital Corp. ("Oxygen") also received a success fee of \$500,000, payable in Units upon closing of the Madsen transaction. These Units consist of 2,000,000 common shares of Pure Gold priced at \$0.25 per share and one-half of one common share purchase warrant, each whole warrant entitling Oxygen to acquire 1,000,000 common shares of Pure Gold at a price of \$0.50 until September 4, 2016.

The share purchase warrants attached to this success fee have been valued at \$71,312 using the Black-Scholes Option Pricing Model with the following assumptions:

Newman-Madsen - Continued

Upon completion of the acquisition, Pure Gold issued 6,500,000 of its common shares to Sabina (fair value of \$2,730,000), which are subject to a statutory four month hold period. Pure Gold and Sabina also entered into an equity participation agreement pursuant to which Sabina has a right to maintain its equity position in the Company. Such right will expire on the earlier of June 24, 2016 or the date on which Sabina ceases to hold at least 3.5% of the shares of Pure Gold.

d. Antofagasta Alliance, Quebec

On July 25, 2012, the Company entered into a US\$1,500,000, two year strategic exploration alliance (the "Alliance") with Antofagasta Minerals S.A., a wholly owned subsidiary of Antofagasta PLC ("Antofagasta") for generative copper exploration in southern Quebec, Canada.

Effective July 25, 2014, the Alliance was terminated and therefore the Company no longer has any obligations with respect to the Alliance. During the nine month period ended December 31, 2014, the Company received a refundable mineral exploration tax credit of \$161,511 for eligible exploration expenditures incurred in the Province of Quebec. This amount has been netted against exploration and evaluation expenditures. At March 31, 2014, the Company had restricted cash of \$104,224 that was subsequently spent by the Alliance.

As operator, the following costs were incurred on behalf of Antofagasta and accordingly, were not included in the Company's exploration and evaluation expenditures:

	For the nine months ended December 31, 2014	For the nine months ended December 31, 2013

12. PROVISION FOR CLOSURE AND RECLAMATION

The Company has recognized a liability relating to its Madsen Gold Project and has determined that no significant closure and reclamation liabilities exist in connection with the exploration activities on its other exploration and evaluation assets. The Company has calculated the present value of the closure and reclamation provision at December 31, 2014 using a pre-tax discount rate of 1.79% (March 31, 2014 – 2.46%). The estimated total future undiscounted and inflation-adjusted cash flows to settle the provision for closure and reclamation at December 31, 2014 is \$2,914,915. Since no abandonment plans are being considered as well as the uncertainty surrounding the end of the life of mine, the Company has estimated that payments will be made in 2024.

d. Stock Options

The Company has established a share purchase option plan (the “Stock Option Plan”) whereby the board of directors may, from time to time, grant options to directors, officers, employees, consultants or management company employees. Options granted must be exercised no later than five years from the date of grant or such lesser or greater period as may be determined by the Company’s board of directors and in accordance with the policies of the TSX-V. The exercise price of an option must be determined by the board of directors and in accordance with the Plan and the policies of the TSX-V. Subject to the policies of the TSX-V, the board of directors may determine the time during which options shall vest and the method of vesting, or that no vesting restriction shall exist. The Company applies the fair value based method of accounting for stock options granted to officers, directors, employees and non-employees.

Nine months ended December 31, 2014

April 2014

On April 7, 2014, the Company granted incentive stock options to its directors, employees and consultants exercisable to purchase up to 4,380,000 common shares in the capital of the Company until April 8, 2019 at an exercise price of \$0.35 per share. The incentive stock options were granted in accordance with the Company’s Stock Option Plan and, other than those options granted to non-executive directors, are subject to vesting provisions whereby 793,333 options will vest one year from the grant date, 793,333 options will vest two years from the grant date and the remaining 793,334 will vest three years from the grant date. The 2,000,000 options granted to non-executive directors vested immediately.

The fair value of these options at issuance was \$1,129,040, of which \$790,817 has been recognized as share-based compensation expense during the nine month period ended December 31, 2014. The corresponding share-based compensation expense has a weighted average fair value of \$0.26 per option and was estimated using the Black-Scholes Option Pricing Model with the following assumptions:

Assumptions	
Risk-free interest rate	1.73%
Expected stock price volatility	97.93%
Expected dividend yield and forfeiture rate	0.00%
Expected life of options	5 years

May 2014

17. FAIR VALUE MEASUREMENT

There are three levels of the fair value hierarchy that prioritize the inputs to valuation techniques used to measure fair value, with Level 1 inputs having the highest priority. The three levels of the fair value hierarchy are described below:

Level 1 – Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities.

Level 2 – Quoted prices in markets that are not active, or inputs that are observable, either directly or indirectly, for substantially the full term of the asset or liability; and

Level 3 – Prices or valuation techniques that require inputs that are both significant to the fair value measurement and unobservable (supported by little or no market activity).

The Company does not have any financial assets and liabilities that are measured at fair value on a recurring basis and also does not have any non-financial assets and liabilities measured at fair value on a non-recurring basis.

The fair value of the following financial assets and liabilities approximate their carrying amount:

- Cash
- Restricted Cash
- Short-term Investments
- Amounts receivable (excluding sales tax receivable and resource tax credits)
